INDEPENDENT AUDITORS' REPORT

To the Governing Board, Pinellas MYcroSchool of Integrated Academics and Technologies, Inc.:

We have audited the accompanying financial statements of the governmental activities and each major fund of Pinellas MYcroSchool of Integrated Academics and Technologies, Inc. ("MYcroSchool Pinellas"), a component unit of The School Board of Pinellas County, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of MYcroSchool Pinellas as of June 30, 2016 and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 5, 2016 on our consideration of MYcroSchool Pinellas's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering MYcroSchool Pinellas's internal control over financial reporting and compliance.

James Moore ; Co., P.L.

Tallahassee, Florida October 5, 2016

This section of Pinellas MYcroSchool of Integrated Academics and Technologies, Inc.'s annual financial report presents our discussion and analysis of the School's financial performance during the fiscal year that ended on June 30, 2016. Please read it in conjunction with the School's financial statements, which immediately follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Financial Statements

The financial statements presented herein include all of the activities of the Pinellas MYcroSchool of Integrated Academics and Technologies, Inc. (the "School") using the integrated approach as prescribed by GASB Statement Number 34.

The Government-Wide Financial Statements present the financial picture of the School from the economic resources measurement focus using the accrual basis of accounting. They present governmental activities. These statements include all assets of the School as well as all liabilities. Additionally, certain eliminations have occurred as prescribed by the statement in regards to interfund activity, payables and receivables.

The Fund Financial Statements include statements for the governmental activities. The Governmental Funds are prepared using the current financial resources measurement focus and modified accrual basis of accounting.

Reconciliations of the Fund Financial Statements to the Government-Wide Financial Statements are provided to explain the differences created by the integrated approach.

The Primary unit of the government is the School Board of Pinellas County, Florida.

FINANCIAL HIGHLIGHTS OF THE PAST YEAR

An overview of significant financial information from the current year includes:

- > The school's total net position increased by \$48 thousand.
- > Total governmental fund revenues exceeded expenditures by \$104 thousand.
- Capital assets, net of depreciation, decreased by \$36 thousand.
- > The School's governmental funds reported combined ending fund balances of \$157 thousand.
- The school has achieved a minimum general fund balance of 5% as a percentage of current year expenditures and was able to end the fiscal year with that ratio at 11.1%.

REPORTING THE SCHOOL AS A WHOLE

The Statement of Net Position and the Statement of Activities

The *Statement of Net Position* and the *Statement of Activities* report information about the School as a whole and about its activities. These statements include *all* assets and liabilities of the School using the accrual basis accounting, which is similar to the accounting used by most private-sector companies. All of the current year revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the School's *net position* and changes in them. Net position is the difference between assets and liabilities, one way to measure the School's financial health, or *financial position*. Over time, *increases or decreases* in the School's net position are one indicator of whether its financial health is improving or deteriorating. Other factors to consider are changes in the School's revenue base and the condition of the School's capital assets.

The relationship between revenues and expenses is the School's operating results. Since the Board's responsibility is to provide services to our students and not to generate profit as commercial entities do, one must consider other factors when evaluating the overall health of the School. The quality of the education and the safety of our schools will likely be an important component in this evaluation.

In the *Statement of Net Position* and the *Statement of Activities*, we designate the School activities as follows:

Governmental activities—All of the School's services are reported in this category. This includes the education of high school students, and the on-going effort to improve and maintain capital assets. Revenues received from the Florida Education Finance Program through the Pinellas County Public School system, Federal grants and miscellaneous local revenues finance these activities.

REPORTING THE SCHOOL'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds – not the School as a whole. Some funds are required to be established by State law. However, management may establish various funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other monies that it receives.

Governmental funds—The School's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using the modified accrual accounting method, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the School's programs. The differences between the governmental fund financial statements and the government-wide financial statements are explained in reconciliations following each governmental fund financial statement.

THE SCHOOL AS A WHOLE

Net Position

The School's net position was \$189 thousand for the fiscal year ended June 30, 2016. Of this amount, none was unrestricted. Restricted net position are reported separately to show legal constraints from debt covenants grantors, constitutional provisions and enabling legislation that limit the School's ability to use those net position for day-to-day operations. Our analysis below, in summary form, focuses on the net position (Table 1) and change in net position (Table 2) of the School's governmental activities.

Table 1

	Net I June 3	Net Position June 30, 2015

Change in Net Position	\$	47,798	\$ (68,331)
Change in Net Position	\$	47,798	\$ (68,33

Governmental Activities

In Table 3, we have presented the cost of the School's three largest operational functions - basic instruction, school administration, facilities acquisition and construction, as well as each program's net cost (total cost less revenues generated by the activities). As discussed above, net cost shows the financial burden that was placed on the general public by each of these functions. Providing this information allows citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

Table 3

Totals	\$	157,467	\$	53,049

General Fund Budgetary Highlights

During the course of the fiscal year, the School revised its General Fund Budget in order to deal with unexpected changes in revenue and expenditures. The Governing Board adopts its initial budget based on projected enrollment and the corresponding projected revenues. Amendments are primarily required to reflect changes in revenue estimates from the State of Florida Education Finance Program (FEFP) as actual enrollments are determined. A schedule showing the School's original and final budget amounts compared with actual amounts paid and received is provided in our annual report on pages 29.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2016, the School had \$218k in a broad range of capital assets (net of depreciation), including furniture, equipment and building improvements (Table 5).

Table 5

	Governmental Activities June 30, 2016		А	ernmental activities ae 30, 2015
Furniture and Equipment	\$	118,890	\$	118,890
Building Improvements		218,387		218,387
Accumulated Depreciation		(119,024)		(83,498)
Totals	\$	218,253	\$	253,779

SIGNIFICANT ACTIVITIES DURING FISCAL YEAR 2015-2016 ARE NOTED BELOW:

- The School's enrollment was 270 students.
- The School had a graduating class of 52 for the 2015-16 fiscal year.

ECONOMIC FACTORS

The economic position of the school for general operating is closely tied to that of the State. The formula for determining funding for education is set by Statute. State funds to charter schools are provided primarily by legislative appropriations from the State's general revenue funds under the Florida Education Finance Program (FEFP), and the State funding for operations is primarily from sales, gasoline, and corporate income taxes. Additionally, the level of tourism in the State heavily influences the amount of taxes collected. Significant changes in State revenue collections could directly impact future School revenue allocations.

CONTACTING THE SCHOOL'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, students, and creditors with a general overview of the School's finances and to show the School's accountability for the money it receives. If you have questions about this report or need any additional financial information, contact Richard L. Trainor, CPA, Chief Financial Officer of New Education for the Workplace, Inc., the School's Educational Services Provider, at 770-831-7046.

(1) <u>Summary of Significant Accounting Policies:</u>

(a) **Financial reporting entity**—The Pinellas MYcroSchool of Integrated Academics and Technologies, Inc. (the "School") was organized in 2010 under the laws of the State of Florida. The School operates under a seven-member Board form of government and provides educational services to students in grades nine through twelve. The School is located at 840 Third Avenue S, St. Petersburg Florida, 33701.

The School is a non-profit public benefit corporation that was incorporated November 4, 2010. On October 11, 2011, the School Board of Pinellas County, Florida approved the application for the School to operate a charter. The purpose of the School is to provide educational services.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the School consists of all funds, departments, boards, and agencies that are not legally separate from the School. For Pinellas MYcroSchool of Integrated Academics and Technologies, Inc., this includes general operations and student related activities of the School.

(b) **Component units**—Component units are legally separate organizations for which the School is financially accountable. Component units may include organizations that are fiscally dependent on the School in that the School approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the School is not financially accountable but the nature and significance of the organization's relationship with the School is such that exclusion would cause the School's financial statements to be misleading or incomplete. The School has no component units. However, the School is considered a component unit of the Pinellas County Public School system.

(c) **Basis of presentation – fund accounting**—The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The School has two governmental funds.

Governmental funds—Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School's major governmental funds:

(1) <u>Summary of Significant Accounting Policies:</u> (Continued)

(c) **Basis of presentation – fund accounting:** (Continued)

(i) **General fund**—The General Fund accounts for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the School for any purpose provided it is expended or transferred according to the general laws of Florida.

(ii) **Capital Project Fund (Public Education Capital Outlay) "PECO" fund**—The PECO fund accounts for the revenue sources that are legally restricted to capital asset expenditures in accordance with the State's rules and regulations.

Basis of accounting – **measurement focus** – *Government-wide financial statements*—The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting.

The government-wide financial statement of activities presents a comparison between direct expenses and program revenues for each governmental program. Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. The School does not allocate indirect expenses to functions in the Statement of Activities. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the School.

Net position should be reported as restricted when constraints placed on net asset use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Fund financial statements—Fund financial statements report detailed information about the School. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column.

Governmental funds—All governmental funds are accounted for using a flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide financial statements and the statements for the governmental funds prepared on a modified accrual basis of accounting. Under this basis, revenues are recognized in the accounting period in which the fund liability is incurred, if measurable.

(1) <u>Summary of Significant Accounting Policies:</u> (Continued)

(c) **Basis of presentation – fund accounting:** (Continued)

Revenues – exchange and non-exchange transactions—Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities within ninety days of fiscal year-end.

Non-exchange transactions, in which the School receives value without directly giving equal value in return, include Florida Education Finance Program funds (FEFP), certain grants, entitlements, and donations. Revenue from the FEFP is recognized in the fiscal year in which the revenues are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose requirements. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: State FEFP distributions, interest, certain grants, and other local sources.

Expenses/expenditures—On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds.

(d) **Cash and cash equivalents**—The School's cash and cash equivalents are considered to be cash on hand and demand deposits.

(e) **Restricted assets**—Restricted assets arise when restrictions on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments or imposed by enabling legislation.

(f) **Capital assets and depreciation**—The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. General capital assets are long-lived assets of the School as a whole. The School maintains a capitalization threshold of \$1,000. The School does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized, but are expensed as incurred.

When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. The valuation basis for general capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. Donated capital assets are capitalized at estimated fair market value on the date donated.

Depreciation of capital assets is computed and recorded by the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are 5 years for furniture and equipment; and 20 years for building improvements.

(1) <u>Summary of Significant Accounting Policies:</u> (Continued)

(g) **Accrued liabilities**—All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds.

(h) **Fund balances**—As a component unit of the School Board of Pinellas County, the School has implemented GASB 54 during a previous fiscal year.

In accordance with GASB 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the School classifies governmental funds balances as follows:

Non-spendable—amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted—amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors, or amounts constrained due to constitutional provisions or enabling legislation.

Committed—amounts that are constrained for specific purposes, are internally imposed by the School's governing Board, and do not lapse at year-end. The School had no committed funds at June 30, 2016.

Assigned—amounts that are intended to be used for specific purposes that are neither considered restricted nor committed. Fund balance minimums may be assigned by management. The School had no assigned funds at June 30, 2016.

Unassigned—all other spendable amounts.

As of June 30, 2016, fund balances are comprised of the following:

The School spends *restricted* amounts first when both restricted and unrestricted fund balances are available, unless there are legal documents or contracts that prohibit this action, such as a grant agreement. The School spends *committed* amounts next, then *assigned*, and lastly *unassigned* amounts of unrestricted funds balances when expenditures are made.

The School has not adopted a formal minimum fund balance policy but budgets to strive for a minimum general fund balance of five percent of current year expenditures.

(i) **Estimates**—The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

(1) <u>Summary of Significant Accounting Policies:</u> (Continued)

(j) **Budgetary data**—The budgetary process is prescribed by provisions of the laws of Florida and requires the governing board to adopt an operating budget each year. The School governing board satisfied these requirements. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major function at year end.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for.

(1) **Income taxes**—The School is exempt from the payment of income taxes on its exempt activities under Section 501(c)(3) of the Internal Revenue Code. Therefore, no provision for income taxes has been made in the accompanying financial statements.

The School files income tax returns in the U.S. Federal jurisdiction. The School's income tax returns for the past three years are subject to examination by tax authorities and may change upon examination.

The School has reviewed and evaluated the relevant technical merits of each of its tax positions in accordance with accounting principles generally accepted in the United States of America for accounting for uncertainty in income taxes, and determined that there are no uncertain tax positions that would have a material impact on the financial statements of the School.

(m) **Pensions**—For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) and additions to/deductions from FRS's fiduciary net position have been determined on the same basis as they are reported by FRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

(n) **Subsequent events**—Subsequent events have been evaluated through October 5, 2016, which is the date the financial statements were available to be issued. No subsequent events have been recognized or disclosed.

(2) Cash and Cash Equivalents:

(a) **Policies and practices**—The School maintains demand deposits with qualified depository financial institutions.

(b) **Deposits**—At year-end, the carrying amounts of the School's demand deposits were \$174,576 for governmental activities. The bank balances totaled \$253,026. Of the bank balances, \$250,000 was covered by Federal deposit insurance and the remaining \$3,026 was covered by pooled/or pledged collateral, but not necessarily held in the schools name.

(3) <u>Capital Assets</u>:

All capital asset additions were acquired with public funds. Capital asset activity for the fiscal year ended June 30, 2016, was as follows:

	Balance July 1, 2015	Additions	Deductions	Balance June 30, 2016
Governmental Activities Capital assets being depreciated				
Buildings and improvements	\$ 218,386.66	\$ -	\$ -	218,386.66
Furniture and equipment	118,889.63			118,889.63
Total capital assets being depreciated	337,276.29			337,276.29
Less: Accumulated depreciation				
Buildings and improvements	30,760.76	11,748.23	_	42,508.99
Furniture and equipment	52,736.90	23,777.93	_	76,514.83
Total accumulated depreciation	83,497.66	35,526.16		119,023.82
Governmental activities				-
Capital assets, net	\$ 253,778.63	(35,526.16)	\$ -	\$218,252.47

During the year ended June 30, 2016, \$35,526.16 was charged to depreciation expense.

Governmental Activities

Unallocated

\$ 35,526.16

(4) Florida Retirement System:

(a) General Information about the Pension Plan— Essentially all regular employees of the School are eligible to enroll as members of the State-administered Retirement System (FRS). Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. The FRS is a single retirement system administered by the Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer retirement plans and other nonintegrated programs. These include a defined-benefit pension plan (Plan), with a Deferred Retirement Option Program (DROP), and a defined-contribution plan, referred to as the FRS Investment Plan (Investment Plan).

(4) Florida Retirement System: (Continued)

(a) General Information about the Pension Plan: (Continued)

In addition, all regular employees of the School are eligible to enroll as members of the Retiree Health Insurance Subsidy (HIS) Program. The HIS is a cost-sharing, multiple-employer defined benefit pension plan established and administered in accordance with section 112.363, Florida Statutes. The benefit is a monthly payment to assist retirees of the state-administered retirement systems in paying their health insurance costs. For the fiscal year ended June 30, 2014, eligible retirees and beneficiaries received a monthly HIS payment equal to the number of years of service credited at retirement multiplied by \$5. The minimum payment is \$30 and the maximum payment is \$150 per month, pursuant to section112.363, Florida Statutes. To be eligible to receive a HIS benefit, a retiree under one of the state-administered retirement systems must provide proof of eligible health insurance coverage, which can include Medicare.

Employees enrolled in the Plan prior to July 1, 2011, vest at six years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at eight years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Members of both Plans may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement plan and/or class to which the member belonged when the service credit was earned.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest.

(4) **Florida Retirement System**: (Continued)

(a) General Information about the Pension Plan: (Continued)

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. School employees participating in DROP are not eligible to participate in this program. Employer and employee contributions are defined by law, but the ultimate benefit depends in part on the performance of investment funds. The Investment Plan is funded by employer and employee contributions that are based on salary and membership class (Regular, Elected County Officers, etc.). Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Employees in the Investment Plan vest at one year of service.

The State of Florida establishes contribution rates for participating employers and employees. Contribution rates during the 2015-16 fiscal year were as follows:

	Percent of Gross Salary			
Class	Employee	Employer (A)		
FRS – Regular	3.00	7.26		
Drop – Applicable to members from all of the above	0.00	12.28		
FRS – Reemployed Retiree	(B)	(B)		

Notes:

- A) Employer rates include 1.66 percent for the postemployment HIS (health insurance subsidy). Also, employer rates, other than for DROP participants, include 0.04 percent for administrative costs of the Investment Plan.
- b) Contribution rates are dependent upon retirement class in which reemployed.

The School's liability for participation is limited to the payment of the required contribution at the rates and frequencies established by law on future payrolls of the School. The School's contributions including employee contributions for the fiscal years ended June 30, 2016, 2015 and 2014, totaled \$54,815, \$65,261, and \$52,218, respectively, which were equal to the required contributions for each fiscal year.

There were 3 School participants in the Investment Plan during the 2015-16 fiscal year. The School's contributions including employee contributions to the Investment Plan totaled \$14,555, which was equal to the required contribution for the 2015-16 fiscal year.

(4) Florida Retirement System: (Continued)

(a) General Information about the Pension Plan: (Continued)

Financial statements and other supplementary information of the FRS are included in the State's Comprehensive Annual Financial Report, which is available from the Florida Department of Financial Services, Bureau of Financial Reporting Statewide Financial Reporting Section by mail at 200 E. Gaines Street, Tallahassee, Florida 32399-0364; by telephone at (850)413-5511; or at the Department's Web site (www.myfloridacfo.com). An annual report on the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services, Division of Retirement, Research and Education Section, by mail at P.O. Box 9000, Tallahassee, Florida 32315-9000; by telephone toll free at (877)377-1737 or (850)488-5706; by e-mail at rep@dms.myflorida.com; or at the Division's Web site (www.frs.myflorida.com).

(b) **Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Re'11lated to Pensions**—At June 30, 2016, the School reported a liability of \$365,629 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School's proportion of the net pension plan relative to the projected contributions of all participating school Schools, actuarially determined. At June 30, 2015 and June 30, 2014, the School's FRS proportion was 0.0001192887 and 0.000949189 percent, respectively. At June 30, 2015 and June 30, 2015, the School recognized pension expense of \$21,099. At June 30, 2015, the School reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Defermed

Defensed

Οι	tflows of	In	eferred flows of esources
\$	10,227	\$	-
	-		36,791
	74,399		-

(4) **Florida Retirement System:** (Continued)

(b) Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: (Continued)

The \$25,028 and \$8,871 reported as deferred outflows of resources related to pensions resulting from School contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30	An	nount
2016	\$	18,930
2017		18,930
2018		18,930
2019		49,260
2020		27,707
Thereafter		11,535
Total	\$	145,292

Actuarial assumptions. The Actuarial assumptions for both defined benefit plans are reviewed annually by the Florida Retirement System Actuarial Assumptions Conference. The FRS has a valuation performed annually. The HIS Program has a valuation performed biennially that is updated for GASB reporting in the year a valuation is not performed. The most recent experience study for the FRS was completed in 2015 for the period July 1, 2008, through June 30, 2014. Because HIS is funded on a pay-as-you-go basis, no experience study has been completed for this program.

The total pension liability for each of the defined benefit plans was determined by an actuarial valuation as of July 1, 2015, using the entry age normal actuarial cost method. Inflation increases for both plans is assumed at 2.60%. Payroll growth for both plans is assumed at 3.25%. Both the discount rate and the long-term expected rate of return used for FRS investments is 7.65%. The plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. Because HIS Program uses a pay-as-you-go funding structure, a municipal bond rate of 3.80% was used to determine was used to determine the total pension for the program. Mortality assumptions for both plans were based on the Generational RP-2000 with Projection Scale BB tables.

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

(4) Florida Retirement System: (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

Asset Class	Target Allocation %	Long- Term Expected Rate of Return %
Cash	1	3.2
Fixed Income	18	4.8
Global Equities	53	8.5
Real Estate	10	6.8
Private Equity	6	11.9
Strategic Investments	12	6.7
Total	100.0%	

Sensitivity of the School's proportionate share of the net pension liability to changes in the discount rate. The following presents the School's FRS and HIS proportionate share of the net pension liability calculated using the current discount rate, as well as what the School's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	Decrease Rate Inc		1% Increase (8.65%)
School's FRS proportionate share of net pension liability (asset)	\$ 399,249	\$ 154,077	\$ (49,946)

			1% Increase (4.80%)
School's HIS proportionate share of net pension liability	\$ 241,054	\$ 211,552	\$ 186,952

(4) **Florida Retirement System:** (Continued)

(b) Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: (Continued)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued FRS financial report.

(5) 403(b) Retirement Plan:

NewCorp sponsors a Retirement Plan allowed by Section 403(b) of the Internal Revenue Code. This plan covers NewCorp, the Management Company, and affiliated schools. The plan covers all full-time employees, immediately eligible upon hire. This is a deduction only plan for School employees, there is no employee contribution matching.

(6) <u>Commitments and Contingencies:</u>

Litigation—The School is not currently a party to any legal proceedings.

(7) <u>Risk Management:</u>

The School is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters and is provided through purchased commercial insurance. Health and hospitalization insurance coverage is provided to school employees through purchased commercial insurance. Insurance coverage for fiduciary and student accident are provided by commercial insurance. Settled claims resulting from insurance coverage above have not exceeded purchased insurance coverage for the past three fiscal years.

(8) <u>Related Party Transactions:</u>

The School has a vendor relationship with New Education for the Workplace, Inc., 2611 Temple Heights Drive, Oceanside, CA 92056. New Education for the Workplace, Inc. is an organization formed for charitable purposes, including advancing the vocational and technical education and training of young men and women, and managing, operating, guiding, directing, and promoting charter schools. The School entered into an agreement with New Education for the Workplace, Inc. effective July 1, 2012. Under the agreement, New Education for the Workplace, Inc. will provide the following services: human resources administration, business administration, curriculum licensing, technology services, and general administrative support. New Education for the Workplace, Inc. workplace, Inc. charged the school \$471,392 for services provided under the terms of the agreement. At June 30, 2016, \$32,583 was due and payable to New Education for the Workplace, Inc. under the terms of the agreement.

(9) <u>Related Party Transactions:</u> (Continued)

New Education for the Workplace, Inc. also advanced operating funds to the School for cash flow purposes in various amounts during the fiscal year. At year-end, there were no advances due and payable to New Education for the Workplace, Inc.

(10) **Operating Leases:**

The School leases facilities under an operating lease expiring on July 31, 2022. Provided the lease is in full force and effect and not in default, the School shall have the right to renew the lease for two five-year terms upon providing the landlord with written notice.

Minimum future rental payments under operating leases (including estimated Common Area Maintenance fees) having remaining terms in excess of one year, for each of the next five years and in the aggregate are:

Year	Amount		
2017 2018 2019 2020 2021 Thereafter	\$	117,327 121,671 125,064 129,186 134,045 150,716	
Totals	\$	778,009	

(11) Interfund Receivables and Payables

The following is a summary of interfund receivables and payables reported in the fund financial statements:

	Interfund			
Funds	Re	ceivables	Р	ayables
General	\$	30,812	\$	-
Capital Projects		-		30,812
Totals	\$	30,812	\$	30,812

Interfund receivables and payables arose from the payment of expenditures related to capital outlay activities in the Public Education Capital Outlay fund using General fund monies.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Governing Board, Pinellas MYcroSchool of Integrated Academics and Technologies, Inc.:

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, and each major fund of Pinellas MYcroSchool of Integrated Academics and Technologies, Inc. ("MYcroSchool Pinellas") as of and for the year ended June 30, 2016, and related notes to the financial statements which collectively comprise MYcroSchool Pinellas's basic financial statements and have issued our report thereon dated October 5, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered MYcroSchool Pinellas's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of MYcroSchool Pinellas's internal control. Accordingly, we do not express an opinion on the effectiveness of MYcroSchool Pinellas's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether MYcroSchool Pinellas's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER OF INDEPENDENT AUDITORS REQUIRED BY CHAPTER 10.850, RULES OF THE AUDITOR GENERAL

To the Governing Board, Pinellas MYcroSchool of Integrated Academics and Technologies, Inc.:

Report on the Financial Statements

We have audited the financial statements of the Pinellas MYcroSchool of Integrated Academics and Technologies, Inc. ("MYcroSchool Pinellas"), a component unit of School Board of Pinellas County, Florida, as of and for the year ended June 30, 2016, and have issued our report thereon dated October 5, 2016.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Chapter 10.850, Rules of the Auditor General.

Other Reports

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*. Disclosures in that report, which is dated October 5, 2016, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.854(1)(e)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no findings and recommendations made in the preceding annual financial audit report.

Official Title

Section 10.854(1)(e)5., Rules of the Auditor General, requires the name or official title of the entity. The official title of the entity is Pinellas MYcroSchool of Integrated Academics and Technologies, Inc.

Financial Condition

Sections 10.854(1)(e)2., Rules of the Auditor General, require that we apply appropriate procedures to determine whether or not the MYcroSchool Pinellas has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that MYcroSchool Pinellas did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Sections 10.854(1)(e)6.a. and 10.855(12), Rules of the Auditor General, require that we apply financial condition assessment procedures for the MYcroSchool Pinellas. It is management's responsibility to monitor the MYcroSchool Pinellas's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Transparency

Sections 10.854(1)(e)7. and 10.855(13), Rules of the Auditor General, require that we apply appropriate procedures to determine whether the MYcroSchool Pinellas maintains on its website the information specified in Section 1002.33(9)(p), Florida Statutes. In connection with our audit, we determined that the MYcroSchool Pinellas did not maintain all of the required information on its website as specified in Section 1002.33(9)(p), Florida Statutes. We recommend that the school review the website regularly for compliance with state statutes.

Other Matters

Section 10.854(1)(e)3., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Section 10.854(1)(e)4., Rules of the Auditor General, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, Pinellas County District School Board, the Board of Directors, and applicable management and is not intended to be and should not be used by anyone other than these specified parties.
